

Tasks, Templates, and Task Lists

Have you ever missed a deadline or opportunity because the sticky note glue gave out and the sticky note ended up on the floor?

Keeping track of your to-do items, docket, order of the day, agenda, lineup or whatever you call your busy schedule, can be easily managed by using GreenFolders tasks. Creating a task directly from the folder, either for you, or other GreenFolders users or groups is quick and easy. The Home Screen provides one location to view tasks to keep you informed and on track!

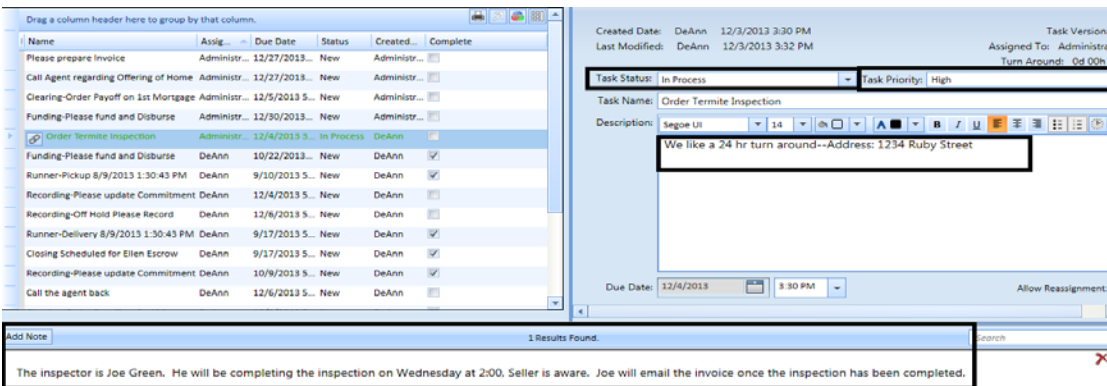

Viewing Tasks

There are two different tabs on the Home Screen labeled Tasks and Group Tasks. The Tasks tab displays a list of all tasks, assigned to you, that are not completed. The Group Tasks tab displays a list of all tasks, assigned to a group that you are a member of, that are not completed. To view a task, double click it or right mouse click on the task and choose Open from the menu displayed.

Creating Tasks

To create a task, open a folder and click the “+” next to the Tasks tab. The Create Tasks window is displayed.

Free Form Tasks

Create one or more tasks on the fly! Type in a Task Name, set the Status and Priority, etc. When you are finished setting up the task, click Create. You can add additional Free Form Tasks at any time by clicking the “+” located to the right of Free Form Tasks.

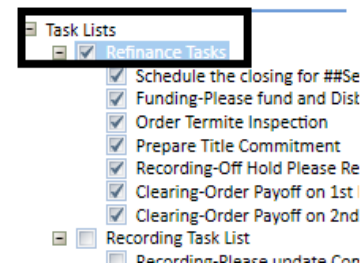

Task Templates

You can quickly add and assign common tasks to a folder by selecting one or more Task Templates. Templates, created by the GreenFolders administrator for your company, may include predefined task names, due dates, task assignees, as well as any additional instruction or details specific to each task.
